

“Hot Topic: Open Access in the German National Library of Medicine“

Dr. Ursula Arning – ZB MED Information Centre for Life Sciences

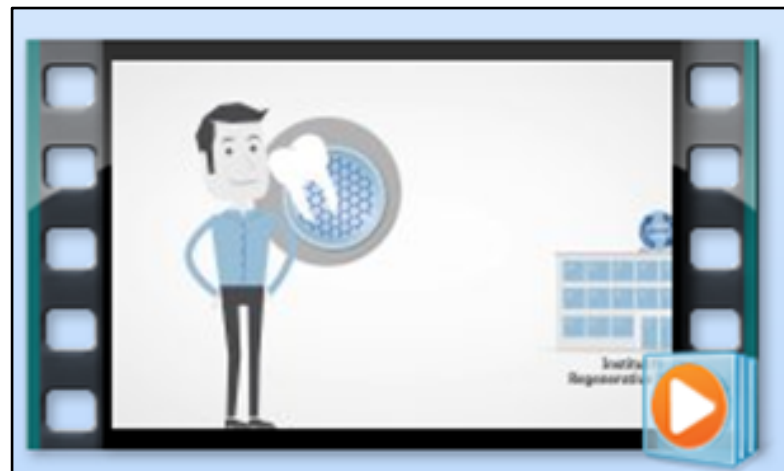

ZB MED – Information Centre for Life Sciences

- ▶ German National Library of Medicine, health care, nutritional, environmental and agricultural sciences
- ▶ Service centre for research in the life sciences
 - advisory services
 - publication services
 - research support
 - application-oriented research
- ▶ publishing portal PUBLISSO
(<https://publisso.de/en>)
- ▶ search portal LIVIVO
(<https://livivo.de/en>)

Open access advisory services at ZB MED

- ▶ Advice on open access publishing, research data management and digital preservation
 - FAQs: <http://www.publisso.de/en/advice/publishing-advice-faqs/>
 - tutorials: <http://www.publisso.de/en/advice/tutorials/>
 - workshops, webinars, personal consultations

Open access publishing services at ZB MED

- ▶ Open access publishing platform for life sciences: PUBLISSO
- ▶ various types of publications:
 - journals and journal articles
 - conference proceedings
 - books or book chapters
 - research data
- ▶ infrastructure for open access gold and green (repository)

The screenshot shows the PUBLISSO website homepage. At the top right, there are links for 'Contact PUBLISSO', 'Login', and 'DE EN'. A search bar is also present. The main navigation menu includes 'PUBLISHING', 'ADVICE', 'RESEARCH DATA MANAGEMENT', 'DIGITAL PRESERVATION', and 'WORKING FOR YOU'. The main content area features a large banner image of a building with a window, overlaid with the text 'PUBLISSO is a driving force for open access.' Below the banner, there are three columns of content: 'Open Access Publishing' with links to Journals/articles, Books, Conferences/congresses, Videos, Research data, and Repositories; 'Open Access Advice' with links to FAQs, Workshops, Personal consultations, and Webinars; and 'PUBLISSO Events' with information about the IFLA WLIC 2019 event, including the date (24.08.2019 to 30.08.2019) and location (Athens).

Gold open access services at ZB MED

The screenshot displays the PUBLISSO website interface. At the top, there is a navigation bar with 'Contact PUBLISSO', 'Login', and language options 'EN' and 'DE'. A search bar is also present. Below the navigation, the breadcrumb trail reads 'PUBLISSO > Publishing > Books > Overview Books'. The main content area lists four books, each with a cover image, title, description, and a 'view book' link. The books are: 1. 'Living Handbook of Perishable Food Supply Chains' by Kath. Engelhardt (Ed.), published by universität bonn and coldchainmanagement. 2. 'Living Handbook of Urogenital Infections' published by GMS and eau (European Association of Urology). 3. 'Online Lehrbuch für Medizinische Psychologie und Medizinische Soziologie' by Hans-Dieter Gellert and Hans-Joachim Strang, published by GMS and DGMS. 4. 'Living Textbook of Hand Surgery' published by GMS.

- enhanced publication (images, videos, audio files or other multimedia content can be embedded)
- peer review by editorial board (cooperation with medical societies which are responsible for the peer review process)
- versioning
- assignment of DOIs to each chapter, article, abstract, research data
- books: each chapter is published separately as soon as peer review is finished

Repository for Life Sciences

- Publication types:
 - postprints (green OA)
 - monographs
 - grey literature
 - dissertations
 - videos
 - research data

To discuss:

It has always been the task of research libraries to facilitate the access to information

- ▶ Is providing publishing services a goal for academic libraries?
- ▶ Should each library provide its own publication infrastructure?
- ▶ What are the advantages/disadvantages of these kind of challenges?
- ▶ Does publishing in libraries contribute to the task of facilitating the access to information?

Feel free to contact me for more information
