Environmental problem of Lviv: the waste removal and recycling

https://www.youtube.com/watch?v=CPw7_DL6DFg

Library helps city - project «Garbadge HERO» Start - 1 Maj 2016

We created the **ECO**corner at the Library

During the project
we teach notions of garbage sorting
and recycling:
real and virtual

We use the latest technologies: for example the computer game «Garbage hero» is applied for learning of garbage sorting

<https://www.shadowmastersgames.com/games/garbage-hero/>

We teach children,
parents, preschool and school teachers

Organizing Green Parties

Organizing ECOexcursions

We use ECOpackaging for books

Environmental children's drawing contests

Participate in citywide events

Urban Workshop

Participate in citywide events ECOforum

#powershift2016

<http://eco-forum-lviv.com.ua/ua/>

Sharing experiences with colleagues

Our Christmas tree - also ECO

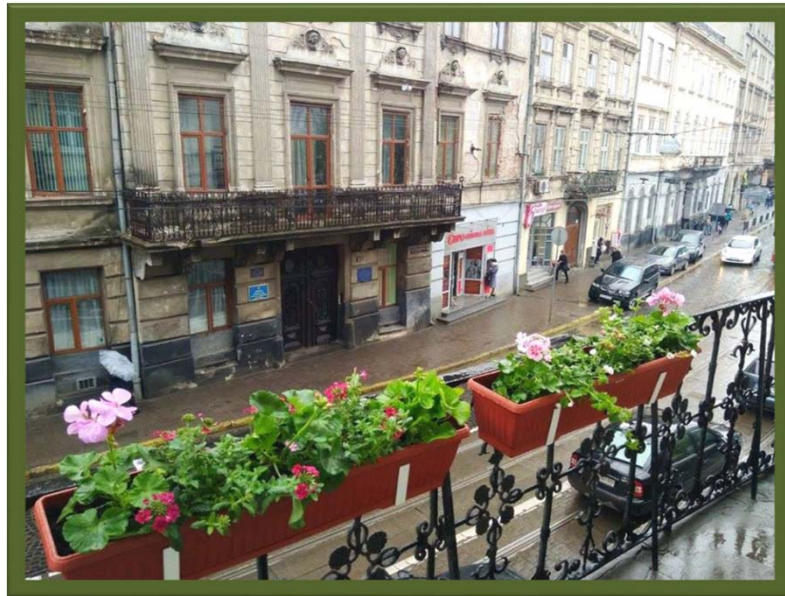

ECOevents in Library

During this time we have held 38 events, 971 participants

We've organized the event with planting greenery at the Library and at the balcony
