

I know the 'why' of DOIs, what about the rest?

Rachael Lammey, Head of Community Outreach, Crossref
IFLA midterm meeting on library publishing, Dublin 2019

Mission

Crossref makes research outputs easy to find, cite, link, assess, and reuse.

We're a not-for-profit membership organization that exists to make scholarly communications better.

Crossref overview

- Over 11,000 member organizations
- Metadata store of over 100 million scholarly content items
- A DOI is just the start - we offer a wide array of services to ensure that scholarly research metadata is registered, linked, and distributed.
- We preserve the metadata we receive and make it available via our open APIs and Search.

What can I register?

Journals

Books

Book chapters

Conference proceedings

Datasets

Dissertations

Reports

Standards

Posted content (preprints)

Peer reviews

... and more

Ways to deposit metadata

- Upload XML file (<https://doi.crossref.org>)
- The manual web deposit form
(<https://apps.crossref.org/webdeposit>)
- OJS Crossref plugin
- Metadata Manager (currently for journal content)

Web deposit form

Registering journal articles?

Try Metadata Manager, now in Beta

Join us at an upcoming interactive webinar and learn how to easily register and update your metadata, with our new tool: Metadata Manager.

These forms allow you to enter metadata and register DOIs. Review the [help documentation](#) for details.

Note: Your Crossref username and password will be required at the end of this process to submit data to the system. **Please insure your browser allows JavaScript so that the data validation will function.**

Step 1: Select Data Type

Data Type Selection

Select Data Type: Journal Book Conference Proceedings Report Dissertation CrossMark Policy page
 NLM File **BETA** Supplemental-Metadata Upload **BETA**

Step 2: Identify the Journal

Journal information

Title:

Abbr:

Journal DOI:

Journal URL:

Print ISSN: Journal DOI and/or ISSN required

Volume: Issue:

Issue DOI:

Issue URL:

Publication dates
note: use numerical values (YYYY, MM, DD)

Type: print
*Year: Month: Day:

Type: online
*Year: Month: Day:

Via OJS

This plugin can be configured to automatically register Digital Object Identifiers (DOIs) with CrossRef. You will need a username and password (available from [CrossRef](#)) in order to do so. If you do not have your own username and password you can still export into the CrossRef XML format, but you cannot register your DOIs with CrossRef from within OJS.

Requirements

All plugin requirements are satisfied.

Settings

The following items are required for a successful CrossRef deposit.

Depositor name *

Depositor email *

This plugin can be configured to automatically register Digital Object Identifiers (DOIs) with CrossRef. You will need a username and password (available from [CrossRef](#)) in order to do so. If you do not have your own username and password you can still export into the CrossRef XML format, but you cannot register your DOIs with CrossRef from within OJS.

Username

Password

Please note that the password will be saved as plain text, i.e. not encrypted.

Register DOIs automatically OJS will deposit article DOIs automatically to CrossRef as articles are published. Please note that this may take a short amount of time after publication to process. You can check for all unregistered DOIs in the [unregistered articles listing](#).
